To the residents of this address

Subject : Construction at Kavel 14|16
Project : 900 and 1000 Mahler

Amsterdam, 19 May 2015

Dear resident,

We are writing to inform you about the construction work that will soon be taking place at the corner of Gustav Mahlerlaan / Buitenveldertselaan.

It concerns the construction of the residential tower. A few weeks ago we started the tunneling process and with these activities we climb about one floor per week. In the week of 26 May, we will reach a height that requires an adjustment of the construction site at ground level. On the north side of the tower (G.Mahlerlaan) extra site fencing will be placed and approximately 10 parking spaces and bicycle path will be decommissioned. The fences enclose a so-called security zone that is needed during the work from the 10th floor up to the 22nd floor. We have previously applied for a permit from the municipality, which was granted.

The "tunnel" activities will last until December 2015 and during this period there will be an alternative route for cyclists which will be indicated by signs. We will do our utmost to finish the job as soon as possible to keep any inconvenience to a minimum.

Kavel 14 | 16 is affiliated with *Bewuste Bouwers*, the Dutch equivalent of the Considerate Constructors Scheme. As such, we respect our neighbours, safety at work, our employees and the environment; these are the values for which our projects stand.
