Our letter attribute: News letter 2
Project: Valley, Zuidas, Amsterdam

Amsterdam, August 24th 2017

Dear Sir, Madam,

We would like to inform you about our building activities for Valley, located at Beethovenstraat and neighbouring to sporting facilities of 'Goed Genoeg (AFC)' and highway A10. The project will be executed by VolkerWessels companies G&S Bouw and Boele & van Eesteren, also known as Bouwcombinatie Valley Amsterdam vof (BCVA). With this letter we provide you a brief introduction of the project and an update on the building activities that will happen on site this summer.

Placing sheet piles

In News letter 1 (July 24th 2017) we have indicated that the placing of the sheet piles will be applied with a sound and vibration-low methodology, to prevent environmental noise. The sheet piles are pressed with four at the same time into the ground. However, the bottom layers of the soil are so hard that extra strength is required for the last meters to get the sheet piles to the desired depth. Therefore, they are brought to depth by vibration.

What does this mean to you?

This method is not a sound and vibration-low method, but the only way for us to get the desired result. This method can give you noise and vibration nuisance.

When will there be disturbance?

We will vibrate between 8:00 and 10:00 until mid October (approx. 8 weeks), up to 3 times a week (Monday, Wednesday and Friday). The next action will be on Friday 25th of August.

Bewuste Bouwers (Considerate Constructors)

Bouwcombinatie Valley Amsterdam is a member of the 'Stichting Bewuste Bouwers'. This means that the company has a strong focus on the local area, safe working practices, employee concerns and the environment. We want to reflect this in each and every one of our projects. If you would like more details about how Bewuste Bouwers can be of assistance to you, please check the website: www.bewustebouwers.nl.

Updates and additional information

On www.bcvalley.nl you can find more information about the project. Via this website we provide an automatic news update. You can sign up for our updates by subscribing your email address at the bottom of our page and to click on 'Op de hoogte blijven' (stay up to date). Note! You have to confirm your login via the automatic email you will receive after subscribing. Prior to inconvenient work, we will inform you via a hard copy newsletter delivered at home.

**Contact**

If you have any questions about the construction of Valley, feel free to contact us via undersigned (communicatie@bcvalley.nl) or to call to 070-414 4200.

The city of Amsterdam's Zuidas Information center is not the commissioning party for this project, but it fulfils a coordinating role in all construction work in Zuidas. If you have any questions or comments about on-going projects in your neighbourhood, please contact:

Amsterdam Zuidas Informatiecentrum
0800 5065 (available 24/7)
contact@zuidas.nl
www.zuidas.nl

We hope to have informed you sufficiently and thank you for your understanding.

Kind regards,

Marcel Poolman

Area and communications manager
Bouwcombinatie Valley Amsterdam vof
