Dear Sir, Madam,

The Municipality of The Hague has recently commissioned Boele & van Eesteren to carry out the structural work of the Turfmarktgarage. In this letter we will tell you more about this new project and the work required.

Renovating the floor of the Turfmarktgarage

The floor around Adagio has to be renovated for the new layout of the Turfmarktgarage. The current floor must be adjusted to ensure that the fire brigade can drive on and off on ground level. For these adjustments, work must be carried out below ground level. Thereafter the ground floor must be demolished to make way for a final concrete floor.

This work will be carried out simultaneously with the construction of Adagio. This ensures that both the work on Adagio and the structural work of the Turfmarktgarage can be completed in the second half of 2023. Afterwards the Municipality of The Hague will realize the final layout of the deck and the parking garage.

Demolition work

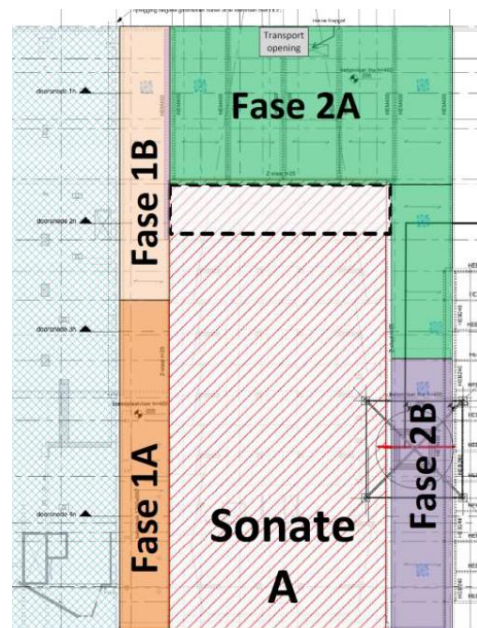

In order to get the equipment and materials for the work on the Turfmarkt garage in the right place, we must create an opening for transport through the ground floor. The demolition work to create this opening will be carried out in October and will take approximately 2 to 3 weeks.

The remaining demolition work will be carried out in phases, starting in Q1 or Q2 2022 and ending after the Adagio tower crane is dismantled late 2022 / early 2023.

For the demolition the least nuisance working method (sawing) was chosen. Unfortunately, nuisance caused by noise and vibrations cannot be prevented. We ask for your understanding.

The dates of the demolition work will be communicated via the Sonate project website:

Automatic news updates and additional information

On www.boele.nl/projectwebsites/sonate/turfmarktgarage you can find more information about this new project. Via this website we provide an automatic news update. You can sign up for our updates by subscribing your email address at the bottom of our page and to click on 'Op de hoogte blijven' (stay up to date). Note! You have to confirm your login via the automatic email you will receive after subscribing.

Working hours

Boele & van Eesteren has a permit to carry out work from Monday to Saturday from 7.00 to 19.00 'o clock. If we need to execute activities outside these working hours, we will inform you in advance through a newsletter.

Bewuste Bouwers (Considerate Constructors)

Of course we are very well aware of the fact that building activities generate nuisance for those living in the area. Unfortunately, there is nothing that we can do to avoid this, but we do try to limit any nuisance to a minimum. Boele & van Eesteren is a member of the 'Stichting Bewuste Bouwers'. This means that the company has a strong focus on the local area, safe working practices, employee concerns and the environment. We want to reflect this in each and every one of our projects. If you would like more details about how Bewuste Bouwers can be of assistance to you, please check the website: www.bewustebouwers.nl.

Contact

If you have any questions or comments regarding the construction in the coming period, please contact the undersigned via sonate@boele.nl or call 070-414 4200. We trust to have informed you sufficiently. We thank you for your understanding.

Kind regards,

Boele & van Eesteren bv
