Subject: Removal sheet piles
Your letter attribute:
Our letter attribute:
Project: Crossroads

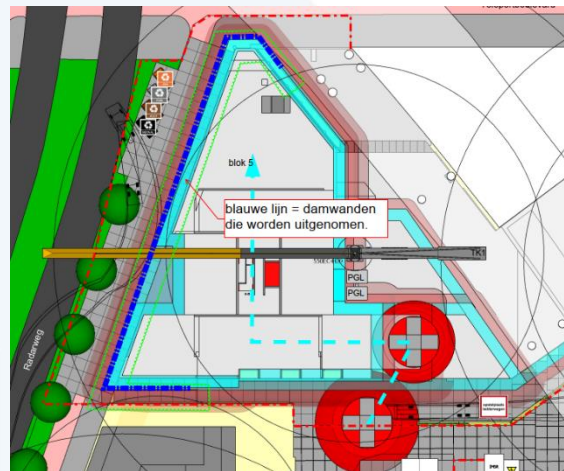

Rijswijk, 25 July 2023

Dear Sir, Madam,

We would like to inform you about our work for the realization of the Crossroads project.

Upcoming activities

In the coming period the sheet pile walls around the construction pit of block 5 will be removed (dark blue line on the drawing). The sheet piles will be pulled by means of a high-frequency vibrating block. This method is necessary because the sheet piles are very solid in the ground, because of this, vibration-free methods are unfortunately not possible. The removal of the sheet piles can therefore cause noise and vibration nuisance for you. We will do our utmost to limit the nuisance. The removal of the sheet pile walls will take place from week 31 to week 33. The remaining construction work will be carried out during normal working hours from 7:00 a.m. to 7:00 p.m. The removal of the sheet piles will be started from 8:00 a.m. onwards. The sheet pile walls of block 10 will not be removed and will remain in the ground.

Traffic measures on Radarweg

For the sake of safety, traffic on Radarweg will be briefly restricted during the removal of the sheet piles. Once a sheet pile has been pulled out, it must be laid down. Due to the length of the sheet piles, it is necessary to cordon off the roadway for several minutes during the laying of the sheet piles. Traffic controllers will instruct and direct traffic.

Bewuste Bouwers (Considerate Constructors)

The project is affiliated with Bewuste Bouwers. This means that the project has a strong focus on the local area, safe working practices, employee concerns and the environment. If you would like more details about how Bewuste Bouwers can be of assistance to you, please check the website: www.bewustebouwers.nl.

Automatic news updates and additional information

On www.crossroadssloterdijk.nl you can find more information about the project. Via this website we provide an automatic news update. You can sign up for our updates by subscribing your email address at the bottom of our page and to click on 'Op de hoogte blijven' (stay up to date). Note! You have to confirm your login via the automatic email you will receive after subscribing.

Contact

If you have any questions or comments regarding the construction in the coming period, please contact the undersigned via crossroads@boele.nl or call 070-414 4200. We trust to have informed you sufficiently. We thank you for your understanding.

Kind regards,

Boele & van Eesteren bv
